

SENTINEL DEFENSE

## NIGHT VISION COURSE

November 20-22, 2024

Course Tuition \$750.00

Active Duty Law Enforcement / Military Only

This 3-day Night Vision Operator course for Law Enforcement is hosted by our friends Sentinel Defense, supported by B.E. Meyers, located at the San Bernardino Sheriff's Range. Night vision can be a game changer for law enforcement safety. Proper utilization of night vision devices can greatly reduce agency and individual liability. Night vision devices are often issued but very misunderstood and misapplied. This course has a heavy focus on integration to patrol and special teams, to maximize the potential of a positive outcome.

This course will modify Thunder Ranch's Urban Rifle Night Vision course, tailored explicitly for Law Enforcement officers working in tactical environments. Over three days, students will enhance their capabilities and gain a comprehensive understanding of using night vision in conjunction with a rifle and pistol. The course is designed to prepare you for real-world scenarios, exploiting varied terrain and structures. You'll navigate in both CQB and open terrain environments, honing your equipment manipulation and situational awareness in low-light conditions, presenting new challenges as you find and engage targets under night vision.

**Instructor:** Jack Daniel is currently the Director of Training for Thunder Ranch, in Lakeview Oregon. Prior to his current role, Jack previously served 19 years in Oregon Law Enforcement, retiring in 2022, when he left to serve as Thunder Ranch's Lead Instructor. During his career, he was a SWAT team member, ultimately serving as Team Leader and held assignments in Patrol, Detectives, and Narcotics divisions. Jack has been heavily involved in curriculum development in both police and private training, as well as being a valued consultant in the firearms/optics industry.

**Student Requirements:** Active Law Enforcement / Military, your credentials will be verified at the training site. Be physically capable of negotiating varied terrain in the dark while fully equipped.

**LOCATION:** San Bernardino Sheriff's Range. 18901 Institution Rd, San Bernardino, CA. 92407
