

LIVE WEBINAR SERIES

ELEMENTS OF BLOODSTAIN PATTERN ANALYSIS: REQUIRED KNOWLEDGE FOR THE BLOODSTAIN PATTERN ANALYST

Begins July 19, 2024 | 1200 - 1500 EDT

COURSE DESCRIPTION

This course is being offered as a 4-week series, with one live webinar occurring each week. When registering, you will have the option to register for the entire series or to register for individual weeks only.

Students attending this course will walk away with increased knowledge of bloodstain pattern analysis fundamentals, pattern identification, crime scene interpretation, and the mathematical components of area of origin calculation and determination.

This course is also designed to help prepare any individual who seeks to specialize in bloodstain pattern analysis with the aim of testing for the Certified Bloodstain Pattern Analysis certification. The course will focus on lecture instruction, practical exercises, and case studies to promote the aforementioned components of the practice of bloodstain pattern analysis.

WHY CHOOSE US?

Our specialized training and resources bridge the gap between generic leadership courses and traditional forensic technician training, equipping you with the skills and knowledge needed for professional development in your forensic career.
