### Course Overview

This is a 32-hour course designed to teach officers how to respond to rapidly evolving hostage rescue incidents safely and tactically. The students shall receive several levels of instruction. The course is designed to be an evolution of "Hostage Rescue Principals." The students will receive classroom instruction which will include several real-world hostage rescue incidents debriefs. The classroom instruction is designed to generate open dialogue between students and instructors. The students will also be able to ask questions of the instructors regarding TTPs (tactics, techniques, and procedures) used during actual hostage rescue incidents. The students will be placed scenario-based exercises with empty weapons and over the course evolve to reality-based scenarios. The exercises / scenarios will be instructor-led "dry" up to and including role players, breaching tools, light-sound diversionary devices, force-on-force (Simunitions®), open air / vehicle / and stronghold problems.

### Equipment Requirements

- Tactical Uniform - Helmet
- Weapon Systems (Rifle / Pistol)
- Dedicated marking cartridge weapon(s) (I.e., Simunitions® - 150 rounds), and safety PPE
- PPE – Eye / Ear Protection
- Tactical equipment normally carried (medical, etc)
