## Protecting Children in a Digital Age

📅 April 9, 2024 | 📍 Virtual

Technology plays a tremendous role in our children's lives. Learn about the ways children are interacting online to create better understanding and open up meaningful communication. Increase awareness of opportunities to protect and connect with children while also gathering valuable information to mitigate threats posed by individuals who seek to exploit them.

(62+)

### About

This day-long seminar is designed to educate a broad range of disciplines responsible for conducting investigations and safeguarding youth. It is open to members of law enforcement, child protection teams, school officials, social workers, counselors, educators, community leaders, and staff members for programs that serve youth.

More information about continuing education units is available [HERE](#).

### Training Schedule:

9:00 am - 4:30 pm CDT

### Past participants had this to say...

*"Class was very informative and up to date on the latest apps and programs kids are using now."*

*"This was a really great training! I feel as though I learned a lot of great things that I will be able to use in both my personal life and my professional life. Thank you for making it so engaging while being virtual!"*

*"I liked the resources that were provided about how to talk to kids about online safety."*

*"I liked the way it was presented. This is a very heavy topic, but doing polls, showing different websites, and breaking up the information was helpful."*

*"Instructor was engaging, knowledgeable and well prepared!"*

### What's In It For You

Upon completion of this training, you will be able to:

- Understand the different types of technology used by children and teens, including devices and apps
- Recognize the differences between the digital age and the world that adults experienced while growing up
- Focus on a proactive approach to digital safety that includes communication, setting guidelines, and digital citizenship training
- Understand the most common online issues that children and teens are likely to face such as cyberbullying, "sexting," and online predators
- Address the legal aspects of all of these topics and learn how to address each of these issues with best practices

- Understand our role in helping victims navigate trauma after the incident has occurred, and learn what resources are available for you to aid in this process

### Is This Training For You?

- Community Member
- Community Corrections Officer
- Court System Personnel
- Educator
- Emergency Management
- Law Enforcement
- Law Enforcement Support
- Prosecutors
- Social Workers
- Tribes/Tribal Partners

The registration fee includes 8 hours of training, program materials, and instructional costs.

**Please note:** This is a paid training program. The training program viewing is limited to only the paid registrant. Any recording of the program, sharing of the presentation or presentation link for live or recorded viewing, dissemination of course materials, or other use of the training event is strictly prohibited. Only the paid registrant for this course will receive a certificate of attendance/program completion.

### Instructors

**Dana Miller** Associate, National Criminal Justice Training Center

Dana Miller is an Associate with the National Criminal Justice Training Center of Fox Valley Technical College. Dana holds a master's degree in criminal justice, and she has worked extensively in education and harm prevention surrounding technology in the state of Wisconsin. Dana is a former Internet Crimes Against Children Task Force Commander; in her tenure with the Wisconsin Department of Justice, Dana managed the program operations for the ICAC Task Force, including managing Wisconsin CyberTips from the National Center for Missing & Exploited Children and collaborating with Wisconsin law enforcement regarding investigations, outreach, and training events. Throughout her career, Dana has provided online safety outreach to over 30,000 people. She is creator and co-creator of multiple Wisconsin online safety programs and initiatives that continue to be utilized, and she teaches online safety primary prevention and responding to sextortion classes throughout the nation.
