

## Western Regional Counterdrug Training Center

# TACTICAL MEDICINE

For Law Enforcement, Military, Support, Corrections & Community Based Organizations

### COURSE DESCRIPTION:

This course is designed to teach law enforcement officers and other first responders how to treat and manage trauma patients in a civilian tactical environment. Utilizing a mix of classroom presentation and hands-on skills practice, attendees will learn how to provide life-sustaining treatments in threatening environments. Instructors will leverage overseas and domestic military experiences in order to illustrate and convey lessons learned in hostile situations. Upon course completion, students will be able to identify and treat the leading causes of preventable death in a multi-phase tactical environment.
