May 20-22, 2025
8:30-5:00

“I have 30 years of government and private sector experience and have attended hundreds of training / courses. This was among the best that I have attended.”

“This symposium was one of the best I have been to in a very long time. The speakers were engaging and the material was very relevant. The best part was that the information seemed more practical and useful than other symposiums.”
