## USE VIDEO AS A FORCE MULTIPLIER FOR JAILS, CORRECTIONAL FACILITIES, AND PROBATION CASES

After completing this 8-hour (2 half-days) online course, participants will know how to use video cameras and associated technology to document activity and evidence for jails, correctional facilities, probation, and parole. It covers the use of video to document intake, interviews and debriefings, contraband concealment, assaults, injuries, and altercations.

Students learn to record evidence-grade video of contraband searches in cells, vehicles, and residences, as well as medical and post-altercation exams. Students also learn day and night video surveillance of static and moving subjects. Safe recording of cell rushes is also demonstrated in this course.

## WHO SHOULD ATTEND

This course is ideal for Jail and Correctional Facility Employees, Juvenile Detention, Probation, Parole, Residential Care, Military, Law Enforcement and Public Safety Professionals.

## COURSE TOPICS

- Camera and equipment selection
- Recording evidence with manual focus
- Recording intake, interviews, debriefings, and interrogations
- Recording full-body, cell, and residence searches
- Recording post-altercation exams and inmate/staff injuries
- Surveillance video of stationary and moving subjects
- Surveillance video at night
- Surveillance video from extreme (mile-plus) distances
- Safely Recording cell rushes
