This course will show the student how to be the most successful when carrying a firearm concealed. Students will learn how to apply the fundamentals of shooting at speed while also maintaining a high level of accuracy. In this course, students will also be working on movement, shooting at increased distances, reloads, & transitions. This is not an entry level course. Students should be familiar with firearms and the firearms safety rules before attending this course.

**Pre-requisite: Basic firearms training from a reputable instructor/school. Email to confirm eligibility.**
