

# IMAGE COMPARISON TECHNOLOGY TRAINING CLASS

## Image Comparison Technology & Best Practices

Image Comparison Technology is increasingly becoming a part of law enforcement across the country. In this 4-hour course, we will provide an in-depth view of the current state of biometric identification, legal aspects and best deployment practices. We'll focus on the balance between how to use this technology responsibly and successfully.

This course will include:

- A walk-through of ComparisonManager Technology Software
- 5-Step Investigative workflow process
- An overview of best practices and policies
- Manage users, cases, and system-level auditing

Get the chance to work through real-world scenarios on Motorola Solutions Image Comparison Technology, ComparisonManager. This hands-on course will be utilizing enhancement tools with step-by-step instruction. Discover how using millions of open-source images in an established gallery complements your existing local booking images. Maximize your investigative efforts by implementing image comparison technology and improve in almost every facet of the job, including both areas of proactive field enforcement and investigations.

Please bring a computer that is wifi capable to complete the hands-on portion of the training
