

PRIMAL RESPONSE TRAINING GROUP LLC.

PISTOL RED DOT INSTRUCTOR COURSE

POST Course #1436-32068-20

Primal Response Training Group developed the Pistol Mounted Red Dot Instructor Course with the belief that red dot sights (RDS) on handguns is the future of gun fighting in law enforcement. This belief stems from firsthand experience as Law Enforcement Officers/Firearms Instructors with experience shooting an RDS equipped pistol and carrying it on-duty.

Our two-day (16-hour) course is designed and developed to discuss all RDS's sights available, as well as the pros and cons for them. This will assist the student when developing an agency policy regarding RDS's and how to effectively train their officers. During live fire training, students will be instructed on how to utilize the RDS to its capabilities, to include: zeroing, malfunction clearing, cadence shooting, occluded optics and more.

Students will be assigned a topic and will perform a teach-back at the conclusion of the class.

Equipment Needed:

- Handgun with already mounted RDS attached.
- Suppressor height iron sights
- Duty/Gun belt with holster and magazine pouches
- 3+ magazines
- Eye/Ear Protection
- 500 rounds of training ammo (minimum)
- 50 rounds of duty ammo (minimum)
- Water

Although not required, we suggest also bringing

- Routine range care (i.e.: cleaning/armorer supplies)
- Sunscreen as the range is outdoors
- Extra ammunition as students will be able to rep drills within their ammo management.
- Belt mounted IFAK (first aid)

Location: 25855 Valley Center Rd. Escondido, CA 92025
